NEWS RELEASE

January 5, 2004

Christ Church, United Church of Christ, recently became the third congregation in Bethlehem, PA to install an ALLEN combination pipe and digital organ. Bethlehem is known as Pennsylvania's "Christmas City", and is also the home of the world-famous Bethlehem Bach Choir.

The three combination pipe/digital instruments were designed and built by the Allen Organ Company of Macungie, PA, the world's largest builder of church organs. The first installation was completed at Packer Chapel of Lehigh University, the actual location of the Bach Choir performances for over a century. The second Bethlehem organ project, at Wesley United Methodist Church, was designed by Dr. Allen Birney and voiced by Burton Tidwell. The large Christ Church project, designed to the specifications of organist and music director Adam Koch, involved the addition of seven pipe ranks and more than seventy digital voices including a full antiphonal organ, to the existing Moeller pipe organ. The organ is now the largest in the city and was dedicated by international concert artist Carlo Curley.
