NEWS RELEASE

August 9, 2007

ASBURY UNITED METHODIST CHURCH, ALLENTOWN, PENNSYLVANIA INSTALLS HERITAGE™ FOUR-MANUAL ORGAN

The ALLEN ORGAN COMPANY of Macungie, PA, the world's largest builder of church organs, announces the installation of a new Four-Manual, 87 Stop Heritage™ organ at Asbury United Methodist Church. The new Allen is now the largest all-digital organ of its kind in the Lehigh Valley. The instrument replaces a four-manual Allen installed originally in 1975.

The custom Heritage™ console is finished in oak, accented with walnut drawknob jambs. The drawknob stems are artfully crafted from exotic rosewood, as are the keyboard and pedalboard sharps.

The organ includes Allen's exclusive Quantum™ technology featuring Quad Suite™ with four complete organ specifications; *American Classic*, *Neo Baroque*, *French Romantic* and *English Cathedral*. Each specification can be accessed by the organist within a matter of seconds to properly present any organ literature. This provides the organist with 321 individual voices on this instrument.

The installation consists of an expanded audio system with 34 audio channels and over 60 speaker cabinets.

The organ will be formally dedicated on Friday, October 26, 2007 at 7:30pm by guest organist, Aram Basmadjian.
