Combination Pipe and Digital Organ Installed in Coral Ridge Presbyterian Church, Fort Lauderdale, Florida

Allen Organ Company of Macungie, PA has recently completed the installation a new organ in the chapel at *Coral Ridge Presbyterian Church*, Fort Lauderdale, Florida. The three-manual *Diane Bish Signature Series* console and digital voices include Allen's patented Quantum technology™. With digital and pipe ranks, the instrument is a blend of today's advanced digital technology and time-honored winded pipe voices. Burton K. Tidwell was the instrument's tonal designer and oversaw the details relating to its design, pipe scaling and tonal finishing.

The new organ's pipe case was built by Robert L. Sipe, Inc. Its reeds and façade pipes were provided by A. R. Schopps and Organ Supply. The instrument's custom Allen digital voices were carefully selected and voiced in great detail on site by Burton Tidwell, who worked with Reginald Hulsey and James Scoggins to complete the installation.

Coral Ridge Presbyterian plans to highlight the new organ at Church Music Explosion 2008 in early 2008.
