

ALLEN

TH200 Theatre Organ

Two-Manual

10 Theatre Ranks/17 Classical Ranks

Allen theatre organs are widely acclaimed for their accuracy in reproducing the authentic sound of the theatre pipe organ. These organs start with the finest theatre pipe organ samples, including the attack, steady state and decay. When combined with authentic digitally sampled theatre organ tremulants, the result is a magnificent ensemble!

The Allen TH200 is a smaller theatre organ that sounds as thrilling as the Q215 theatre organ! In fact the two organs share similar stop lists and utilize Allen's state-of-the-art Quantum™ and Acoustic Portrait™ technology.

For the many professional theatre organists who own Allen theatre organs, these instruments have been a dream fulfilled. Why wait? Start enjoying the finest theatre organ sounds available in your home!
